spirit of excellence

The 2 day TEM course is a practical hands on course aimed at providing delegates with the technical skills to perform TEM surgery independently. Colchester is the regional unit for TEM in the Essex Cancer Network with wide experience in the treatment of early rectal cancer and large rectal adenomas. The course is strongly supported by Richard Wolf providing 8 TEM stations for 8 delegates to allow 2 days of TEM operating on realistic surgical models under the guidance of Frau Mailaender, specialist tutor for TEM from the University of Tuebingen.

2 day practical course cost £750.

Day 1

08:30-09:00:	Coffee and registration
